As pharmaceutical companies face more complex intellectual property issues, especially in the area of generic challenges, keeping up with the latest legal developments is crucial. At this program, four prominent intellectual property attorneys will discuss some of the latest issues to help the Forum's member companies understand the current situation in the area of intellectual property, what to expect next and how to prepare for upcoming challenges. The presentation will mainly focusing on:

- ❖ Future of the "authorized generic" provisions of Hatch-Waxman
- ❖ Paragraph IV certifications
- ❖ ANDAs in general
- ❖ 505(b)(2) exclusivity issues
