Understanding policy changes, international relations and geopolitical risks has never been more critical for global executives. For this special summer program, we have invited two experts who can navigate us through the current political landscape and world order, and discuss how the 2018 midterms could affect global business. Join the New York Pharma Forum for a stimulating discussion and networking reception at the **Battery Gardens** in Manhattan's Battery Park. You, your spouse and colleagues are invited to enjoy the beautiful waterfront setting and views of the New York harbor, the Statue of Liberty and Ellis Island. You can relax on the terrace, meet old friends and make new acquaintances. This event is appropriate for all business people as well as anyone who is interested in current affairs so please extend the invitation.
